Auerback, Webb to Share Baer Award

For the third time in its 13-year history, the Charlotte C. Baer Memorial Clinical Faculty Award will be shared by two UCSF clinical faculty members — Marvin L. Auerback and Gilbert A. Webb. Both men will be honored for their contributions to the quality of education and medicine at UCSF.

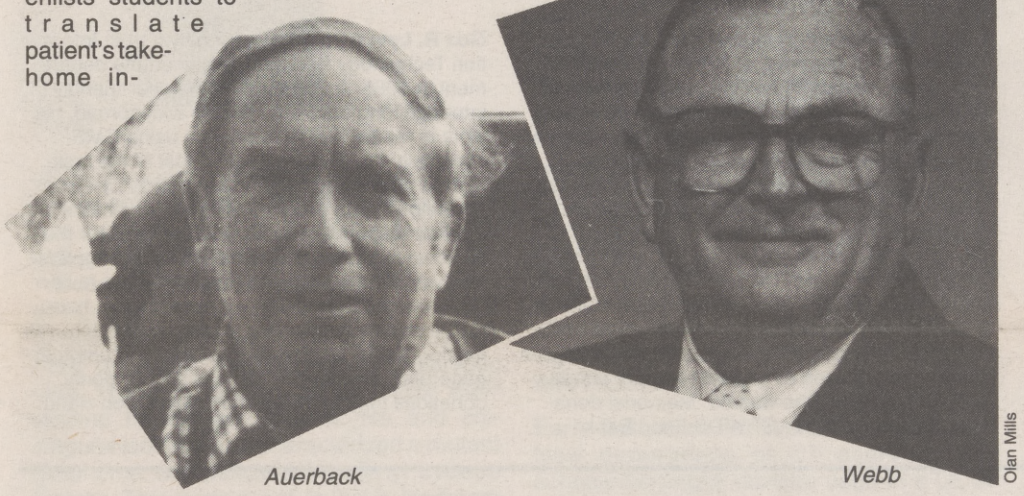
A clinical professor of pediatrics, Auerback is known affectionately by many as "Marvelous Marv." A member of our clinical faculty for some 30 years, he is described as "a superior teacher and someone who provides exemplary service to local, national and international societies." Chief of the Pediatric Cardiology Clinic at SFGH from its inception in 1961, he also holds that same position at the San Mateo Country General Hospital and has a private practice in Foster City.

Auerback is founder of "Parents for Hearts," a support group for parents of children with congenital heart disease, as well as a program which enlists students to translate patient's take-home instructions in languages ranging from Spanish to Chinese, Russian to Vietnamese.

Editor-in-chief of the *California Pediatrician* since 1988, Auerback has received several honors for his dedicated service to pediatrics, including both the Silver and Gold Distinguished Achievement Awards from the California Heart Association and a Bronze Achievement Award from the American Heart Association.

Webb has been a clinical professor of ob/gyn and reproductive sciences since 1972. A '46 UCSF graduate, he has been on campus virtually ever since, except for a three-year stint in the Navy from 1947-50.

Described as being incredibly dedicated to his patients, residents and students, he teaches a weekly conference known by his students as "The Webb-a-thon." His excellent teaching abilities have been recognized several times over the years with the likes of the 1974 Outstanding Teacher of the Year Award from Children's Hospital; the 1977 Outstanding Teacher of the Year Award and the 1986 Clinical Faculty Teaching Award, both from the UCSF Department of Ob/Gyn and Reproductive Sciences; and the 1983 Kaiser Award for Excellence in Teaching.



Auerback *Webb*

Olan Mills

In addition to his private practice in San Francisco, Webb serves as chair of both the Medical Education Committee and the Advisory Sub-Committee on Breast Health at California Pacific Medical Center, where he served as chair of ob/gyn and director of the Adolescent Maternity Center from 1963 to 1980.

The Baer Award honors the courageous woman who fled Germany in 1938 and came to California where she earned her MD from UCSF. She soon became a devoted member of the clinical faculty. The award was established by her family in 1979 to honor clinical faculty members who, like Baer, have distinguished themselves in the areas of teaching and other service to the University.

Auerback and Webb will be presented their award at the annual Faculty-Alumni Dinner on the evening of Thursday, April 30, at the Westin St. Francis Hotel.

Also at the dinner, three other School of Medicine clinical faculty will be given special awards of recognition for excellence in teaching. They are: Kenneth H. Fye, medicine; Waldon Lim, family & community medicine; and R. Jay Whaley, neurology. For further information on the dinner, call Valerie Margol at 476-1471.

A Plan for Better Health Care in CA?

The statistics are appalling: 33.4 million Americans are uninsured. Millions more are underinsured. Each American spends an average of some $2,350 on health every year, while in California, it is estimated that 6.4 million people have inadequate health care.

Last week, the American Medical Students Association and the Medical Student Section of the CMA presented a panel discussion on campus where three different healthcare proposals for California were brought to light — a Canadian-style health plan presented by Kevin Grumbach, UCSF assistant professor of family & community medicine and co-chair, CA Physicians Alliance; The CMA's ABC Plan, presented by Howard Lang, past president of the CMA; and The Garamendi Plan, presented by Andrew Bindman, UCSF assistant professor, medicine, and a member of Insurance Commissioner John Garamendi's task force.

The three panelists agreed that they all wanted this country to have access to universal health care, but differed in how they would achieve that goal.

The CMA's plan, the most conservative of

KPIX's Anna Chavez at Cinco de Mayo

Anna Chavez, a co-anchor on Channel 5's *Eyewitness News*, is the keynote speaker at UCSF's celebration of Cinco de Mayo. She will be on campus Tuesday, May 5, at noon in Toland Hall.

Chavez began her broadcasting career at KGO-TV in 1976. The only Bay Area journalist to report from Costa Rica immediately following that country's earthquake last year, in 1985 she covered the devastating earthquake in Mexico City where she became actively involved an an earthquake relief project, which raised money to rebuild two elementary schools. She has traveled to Washington, DC to cover budget negotiations, military base closures and to interview members of the Kennedy family. She joined KPIX just two months ago.

Chavez's presentation is just one of nearly a dozen events to celebrate Cinco de Mayo, which this year also recognizes the 500th anniversary of the Americas. Just how many events can you cram into a week's time? Quite a few . . . mariachi bands, piñatas and storytelling for the kids, the movie "Zoot Suit," a presentation by pediatrician Jose Ignacio Santos of the Hospital Infantil de Mexico, Council General of Mexico Rodolfo Figueroa and Ballet Folklorico, flamenco dancers, a Cinco de Mayo dance, and a raffle drawing for a Cabo San Lucas trip. And that's not all! For complete details, turn to page 5 of the *Today & Tomorrow* calendar.

Helping Traumatized Children at SFGH

Seventy percent of the children at SFGH are admitted due to traumatic incidents such as physical or sexual abuse, accidents, gunshot wounds or burns. The remaining 30 percent usually suffer from such chronic illnesses as diabetes, asthma, sickle cell disease and leukemia.

The SFGH Play Therapy Program was set up in 1988 to help all these children, who have limited access to toys, and often have very few visitors. The program focuses on therapy, education and coping skills. The brainchild of Moses Grossman, chief of SFGH pediatrics, and the Department of Nursing Services, the program operates under SFGH Volunteer Services. Its director and nurturing force is Linda Chapman.

Now, thanks to a $50,000 donation from Ronald McDonald Children's Charities, the Play Therapy Program has a new, and much needed component — a renovated playroom.

The pediatric playroom, now appropriately called the Ronald McDonald Playroom, was officially opened on April 9. Attending were some very special "graduates" of the Play Therapy Program and current SFGH patients who are waiting eagerly to try out the playroom for the very first time. "Given the budget cuts, we need good days like this more often," Grossman told *Newsbreak* at the opening.

At the opening, a Playroom "graduate" has the chance to pose with Ronald himself.

Some $280,000 in donations from over 20 foundations and private donors have been raised since the Play Therapy Program's inception. Its funding will continue through this year, however additional financial support is needed. For further information, call Kim Dunster, director, Volunteer Services at 206-8193, or Linda Chapman at 206-3196.

Conference on Care of Women with HIV May 7, 8

AIDS researchers and community groups will join together to discuss issues in the care of women with HIV infection in a two-day conference on Thursday and Friday, May 7 and 8, at UCSF Laurel Heights. It will be hosted by UCSF, the SF Department of Public Health, and Planned Parenthood Alameda/SF.

According to program directors, the conference will be a rare opportunity to bring together healthcare providers and representatives from community agencies to discuss issues of clinical care, the epidemiology of AIDS in women and access to care for these women.

Women in the US make up the demographic group with the most rapidly growing number of AIDS cases, yet very little attention has been focused on the unique problems faced by women with the disease. Some of the topical and urgent issues to be taken up at the conference include the transmission of HIV from mother to newborn, the problems women at risk have in obtaining care, how to identify and assist women at risk for HIV infection, and important issues regarding reproductive decision making for women with HIV infection.

The conference is co-sponsored by the San Francisco STD Prevention/Training Center, the PHREDA Project, and the Bay Area Research Consortium on Women and AIDS. Funding has been provided by the Centers for Disease Control, the Department of Public Health, Burroughs Wellcome Company, Hoffman-LaRoche, Ortho-MacNeil and Pfizer Pharmaceuticals. There is no cost for the course. Enrollment is limited to the first 250 applicants. At the time of this writing there was a waiting list of 70 people. For further information call 554-9630.

Gazette

Appointments

David Powers

Kelly

Boyden

Regis B. Kelly: Appointed director, Hormone Research Institute. He has been acting director since April 1989, replacing William J. Rutter, and holds the additional positions of professor, biochemistry & biophysics, and director, Cell Biology Program. Founded in 1967, the HRI initially focused on identifying and characterizing new peptide hormones. It now uses the latest technologies and concepts in cell and molecular biology to explore how peptide hormones are made, how they are released into the blood and how they affect target tissues. Kelly oversees all facets of the Institute, including the particular emphasis now placed on the study of aberrations in insulin levels during diabetes.

Jaclyne Witte Boyden: Appointed associate dean for administration, School of Medicine. She returns to campus from the State University of New York at Stonybrook where she was associate dean for administration for their School of Medicine. Prior to her appointment at Stonybrook, she was assistant director of the CVRI here at UCSF. She also had been the MSO for the departments of medicine and biochemistry & biophysics. Her administrative responsibilities in the new position will include space and financial planning.

Chambers

Henry "Chip" Chambers: Appointed chief, infectious diseases, SFGH. He continues in his post as director of the microbial pathogenesis unit in the division and also holds the position of associate professor, medicine. Chambers' research activities focus on bacterial resistance in antimicrobials, the treatment of staphylococcal infections and the genetics and physiology of methicillin and penicillin resistence in staphylococci. He will continue as associate director of the HIV Counseling & Testing Service at SFGH and the Needlestick Hotline Program.

Publications

James L. Sorensen, David R. Gibson, Kyung-Hee Choi, Joseph R. Guydish & Steven L. Batki: Co-authors, *Preventing AIDS in Drug Users & Their Sexual Partners* (Guilford Publications, Inc., NY, 1991). Sorensen is professor, psychiatry; chief, SFGH Substance Abuse Services; Gibson is associate professor, psychiatry; Choi is postdoctoral fellow, Traineeship in AIDS Prevention Studies Program, epidemiology & biostatistics; Guydish is project director & assistant clinical professor, medicine & Institute for Health Policy Studies; Batki is associate clinical professor, psychiatry; medical director, SFGH Substance Abuse Services.

David Ira Margolin: Editor, *Cognitive Neuropsychology in Clinical Practice* (Oxford University Press, NY, 1992). Margolin is assistant professor, neurology & psychiatry; chief, neurology, VAMC, Fresno.

Robert Foothorap

UCSF Garners Most NARSAD Awards

Seven young scientists from UCSF have won 1992 National Alliance for Research on Schizophrenia & Depression (NARSAD) Awards. Sixty awards were given nationwide this year with UCSF receiving the most of any single institution. Shown clockwise from bottom left: Mark Grimes, postdoctoral fellow, neurology; from psychiatry, assistant professor Raymond Deicken, resident Larry Tecott, and assistant professors John Rubenstein and Nelson Freimer. Not shown are assistant professor Robert Malenka and postdoctoral fellow Warren Kruger, both of psychiatry. Freimer, Malenka and Rubenstein are second-time winners of the two-year awards worth $30,000 each.

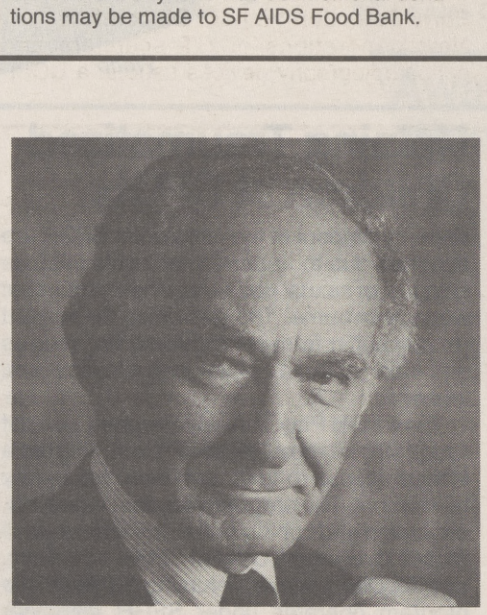
In Memoriam

Robin Kay: A staff research associate II in the Department of Medicine at SFGH, she worked on a research project studying the effectiveness of, and adverse reactions to, a standard antituberculosis drug regimen in tuberculosis patients with and without HIV. Besides coordinating all study activities, she designed and implemented a data management system for the study and synthesized the information for the principal investigator. A concert pianist and musical director for the Pacific Coast Chamber Singers, Kay was one of the founders of the Gay/Lesbian Chorus and the San Francisco Bach Society. She had conducted performances of the Chorus at Davies Symphony Hall and at Madison Square Garden in New York City. She was 56. Memorial donations may be made to SF AIDS Food Bank.

Goz R. Lyv: A programmer/analyst III at Information Technology Services, he joined the department in 1985. A champion of the user-friendly interface long before it became widespread, his work is readily visible to anyone using CMS, especially the "Help" system. Most of the task-related help menus were designed by Lyv, and his HelpConvert program is distributed nationally. He was responsible for writing the code for the National Institutes of Health Guide Viewing System, enabling faculty and researchers to review NIH news and grant announcements in a timely and convenient manner. Lyv also is credited with making UCSF letterhead available for computer-generated documents. He was 39. Memorial donations may be made to Project Open Hand.

Honors & Awards

Blackburn



Friedman

Elizabeth H. Blackburn: Elected a fellow of The Royal Society, an independent society in the United Kingdom which was founded in 1660 for the promotion of natural sciences. Blackburn, one of only two women elected out of the 40 fellows this year, was chosen for her studies of the DNA structure at the ends of eukaryotic chromosomes, and for discovering telomerase, an enzyme that directs synthesis of the chromosomes by using an integral RNA component of the enzyme itself as a template. Blackburn is professor, microbiology/immunology; biochemistry & biophysics.

M. Wallace Friedman: Received the Distinguished Service Award from Mount Zion Medical Center of UCSF for his contributions to Mount Zion's academic, clinical and fundraising activities. He is associate clinical professor, ophthalmology.

"Your Consumer Pharmacist" is Expanding

KTVU-TV Channel 2 has increased the number of airings of "Your Consumer Pharmacist" from three to six per week. Hosted by UCSF pharmacist Linda Bernstein, the show now can be seen on *Mornings on Two* on Mondays and Wednesdays, *Two at Noon* on Tuesdays and Fridays, and *The 5 O'Clock News* on Saturdays and Sundays.

Bernstein also has had her weekly half-hour consumer-oriented radio show, called "In the Medicine Cabinet," renewed for its sixth season. It airs on KFRC AM, "Magic 61" on Sundays at 7 a.m. Plus, she now is on Magic 61 doing nine 30-second segments each week, between 6:30 a.m. and 7 p.m. A segment is broadcast each morning, afternoon and evening on Mondays, Wednesdays and Fridays.

Bernstein, who produces, writes and hosts the shows, has received numerous research and media awards. She has been on the Division of Clinical Pharmacy faculty since 1979.

Healthcare Crisis *(from page 1)*

the three, works on the premise that of the six million Californians who are uninsured, 75% of them are employed. If employers made insurance policies mandatory, this would bring these people into the healthcare system, and would take the tremendous weight off of the trauma system and thus lower the costs incurred by the individual consumer.

The Garamendi Plan works on the premise that instead of getting health insurance through the workplace, everyone would go to a new set of organizations known as HIPC — Health Insurance Purchasing Corporations. The HPIC would have a limited number of providers you could choose from in any given region. Preventive care would be promoted, and there would be co-payments, which Bindman said would make the consumer more cost-conscious. Most people would choose a basic benefits program, similar to one Kaiser now has, but people would have the opportunity to pay more for a more extensive plan if they preferred.

Complaining of termites in the present healthcare structure, Grumbach said that a new system needs to be devised, one which offers one plan for each and every American, independent of a person's age, ability to pay, employment status, etc. In his Canadian-style plan, all healthcare insurance companies would be eliminated, the patient would be out of the billing cycle, and the tax system would pay for it all. Government would not run the delivery system, just the health insurance function. "People would no longer have to agonize over whether or not, for example, they can afford the money to take their kid to the emergency room in the middle of the night without jeopardizing dipping into the kid's savings for college," explained Grumbach.

One person from the audience asked that if Americans as a whole have not embraced cutting costs, nor have they been able to balance the questions of cost efficiency and quality, what will it take to make them change their attitudes?

The consensus from the panelists: "Good question."

Other questions remain. Among them, what would happen to a new California health plan if the country adopted a national healthcare system? More in future issues of *Newsbreak*.

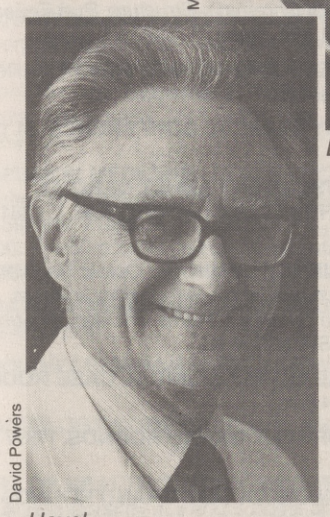
Debas



David Powers

Havel

UCSF researchers Henry R. Bourne, Haile T. Debas and Richard J. Havel are among 205 new fellows elected to the American Academy of Arts & Sciences.

Bourne is professor and chair of pharmacology and professor of medicine. For the last 20 years, he has been at the cutting edge of work on signal transduction in eukaryotic cells. His work focuses on the cyclic AMP second messenger system. He and colleagues isolated and characterized a mutant lymphoma cell deficient in adenyl cyclase activity. This turned out to be a landmark experiment in second messenger signaling, as this particular cell line lacked a G-protein, one of the touchstones of second messenger signaling in eukaryotic cells

Debas is professor and chair of surgery. Much of his research deals with the physiology and pathophysiology of the gastrointestinal tract, especially the hormonal control of gastric secretion and intestinal mortality. He has been a major focus for UCSF's transplantation program. With cooperation between surgery, medicine and pediatrics, UCSF has become a major center for transplantation — kidney, pancreas, liver, heart, lung, bone and cornea.

Havel's 34-year research career has focused on the proteins that control the movement of dietary fat and cholesterol through the blood and in and out of tissue. This work led him to the discovery of two genetic disorders that interfere with this movement. Havel is professor of medicine and director of the CVRI.

Mount Zion Support Groups

Mount Zion/UCSF is offering a new cardiac support group, called "At the Heart of It," for people who face the problems and fears surrounding heart disease. The first six-week series starts Wednesday, May 20, at 4:30 p.m. at Mount Zion's cardiac fitness room. The cost is $50. For further information call 885-7227.

Mount Zion/UCSF also is offering an eight-week support group starting Monday, May 18, for parents who have lost a child to a serious illness. The Family Bereavement Program will hold the sessions at UCSF Laurel Heights from 6:30 to 8 p.m. Interested families should call Susan Haikalis, Mount Zion Patient & Family Services, 885-7529.

The First Practical Improvement in CPR?

Inspired by a man's impulsive decision to resuscitate a heart attack victim by pumping on his chest with a toilet plunger, UCSF researchers led by Todd J. Cohen have developed a suction device that potentially could become the first practical improvement in CPR since the technique was developed in 1960.

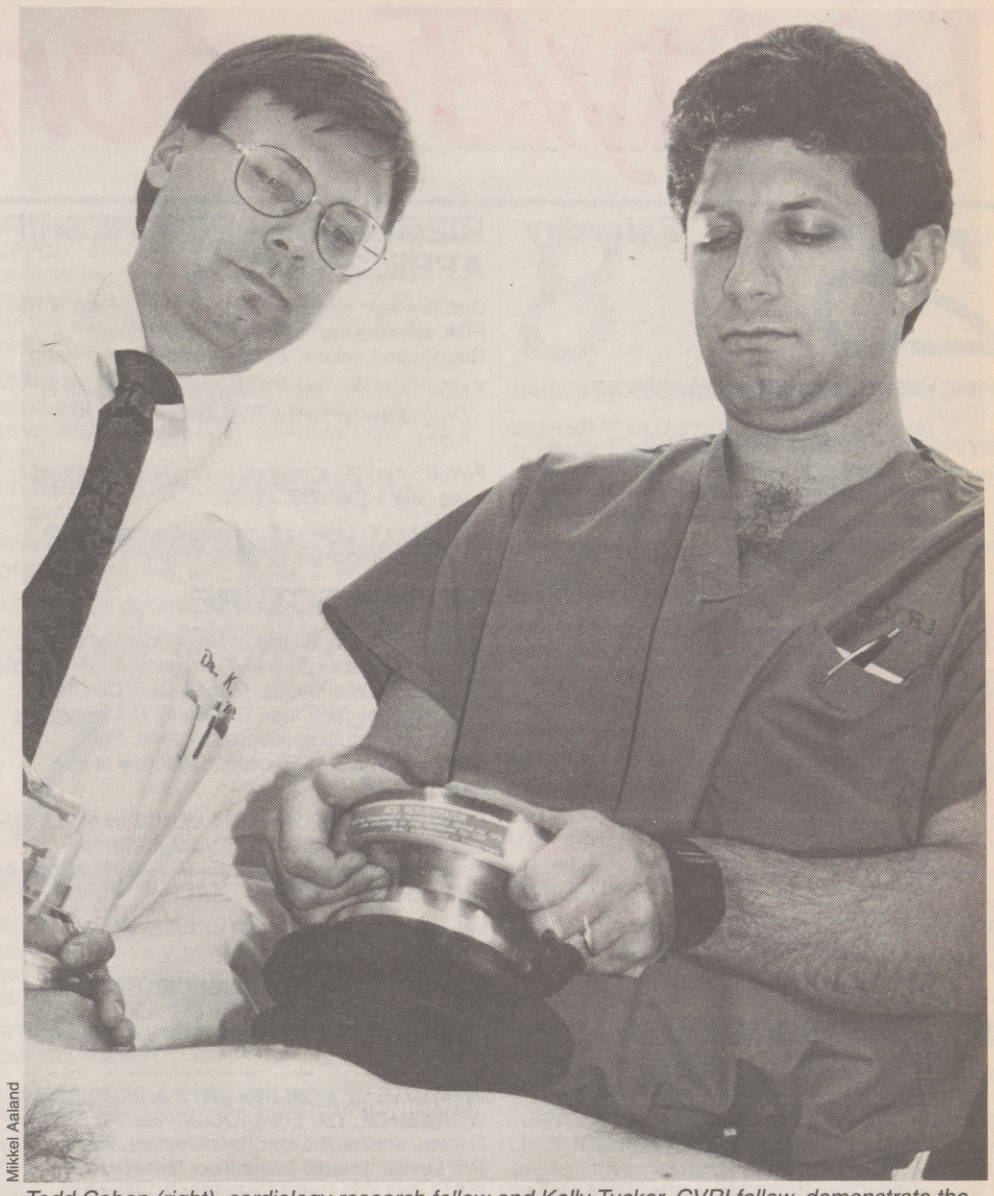
Known as the Active Compression-Decompression (ACD) Resuscitator, the device includes a large rubber suction cup attached to a horizontal handle about half a foot in diameter and a couple of inches thick. After placing the suction device on a heart attack victim's bare chest, the user grips the handle with both hands and pushes and pulls on the device in the same rhythm as conventional CPR. The UCSF study proved that the ACD pumped more blood through the heart and drew more air into the lungs of heart attack victims than standard CPR.

"The compression phase is identical to standard CPR," Cohen says. "But when you pull up, the suction expands — or decompresses — the chest and draws more blood to the heart. When you push down — or compress — again, more blood then flows out of the heart." A similar sequence occurs with air being drawn into the lungs, helping the patient breathe.

Researchers began investigating the technique after a heart attack patient who had been revived through CPR performed with a bathroom plunger arrived at SFGH.

Cohen, who wanted to determine whether the anecdotal case held scientific merit, worked on the study with Kelly J. Tucker, CVRI fellow, and Michael L. Callaham, professor of medicine and director of the Division of Emergency Medicine.

Cohen presented results of his tests, displayed the device for the first time, and demonstrated the ACD method on April 13 at the annual meeting of the American College of Cardiology in Dallas. Other UCSF studies presented at the meeting included:



Mikkel Aaland

Todd Cohen (right), cardiology research fellow and Kelly Tucker, CVRI fellow, demonstrate the ACD Resuscitator.

Removing Dangerous Plaque
Cardiologists led by reseach fellow Peter J. Fitzgerald reported that by using a new procedure, which combines two innovative advances, they can remove dangerous deposits of plaque that lines blood vessels. They mounted an ultrasound transmitter on a tiny drill which provided a clear image of artery walls, allowing them to aim the cutting tool exactly at dangerous deposits of plaque lining the blood vessels. Principal investigator was Paul Yock.

Early Detection Without Discomfort
New generations of CT scanners and echocardiography devices used in a UCSF study detected early stages of coronary artery disease without the risk or discomfort of angiography. Rita F. Redberg, assistant professor of medicine, reported that ultrafast computed tomography (UCT), a type of computer-assisted x-ray, allowed cardiologists to provide a correct diagnosis for coronary artery disease for 83 percent of the patients studied. Transesophageal echocardiography (TEE), which uses ultrasound waves to obtain an image of the heart, allowed the researchers to provide a correct diagnosis for 92 percent. "Within a year, there will be enough data gathered to show whether these techniques would be useful for screening high-risk individuals," she says.

"Silent" Coronary Disease
VAMC researchers have found "silent" coronary artery disease in as high as 20 percent of apparently healthy men with high blood pressure whose smoking, obesity or other factors place them at increased risk for heart disease. According to Barry Massie, director of the VAMC hypertension and coronary care units, physicians have long known that the 55 million Americans with high blood pressure are at increased risk of heart attack, but until now the prevalence of significant coronary artery disease in high-risk hypertension patients was unknown.

AIDS Health Project's "Helping Hands" Awards

When the UCSF AIDS Health Project began in 1984, there were no volunteers, primarily because they weren't needed. But now, eight years later, there are 250 volunteers, who are, unfortunately, all sorely needed for a variety of HIV-related programs.

On April 10, the AIDS Health Project paid tribute to four of these people for their extraordinary efforts by presenting them with "Helping Hands" Awards: volunteer therapist Beth Ohanneson, acting social programs coordinator Brian SooHoo, clinical social worker Jerry Polon, and Richard Ulrich, representing the Silver Star Group of the Handicapped Division of the SF Department of Recreation.

"We have the true spirit of volunteerism here," says psychiatrist James Dilley, executive director of the AIDS Health Project. "We are very proud of all of them."

The AIDS Health Project recently has had a large jump in volunteer therapists. "We have over 125 of them now, and we are serving as a model for many agencies all over the West Coast," says Dilley. "But, we still need counselors of color." He goes on to say that volunteers are needed on all levels, "including those for the not-so-easy-task of helping to answer our telephones."

For further information, call 476-6430.

(Clockwise from bottom left) Beth Ohanneson, Richard Ulrich, Jerry Polon and Brian SooHoo

Today/Tomorrow

25 Saturday

ANESTHESIA GRAND ROUNDS. HSW 301. 8-10 a.m.

PSYCHIATRY SPRING SYMPOSIUM: *Clinical & Research Advances in the Treatment of Alcoholism & Drug Abuse.* Laurel Heights Conf. Cntr. 8 a.m.-5 p.m. Call Debra Moore at 476-7520 for reservations & information.

Young & Rubicam

NEIGHBORHOOD CLEAN-UP

Join UCSF & community volunteers for a clean-up at 9th & Irving in conjunction with San Francisco's "One Neat City" campaign. Bring work gloves. Free t-shirt for your efforts. Laguna Honda School. 8:30 a.m.-1 p.m. Call 476-8055.*

WOMEN'S RESOURCE CENTER WORKSHOP: *Basic Carpentry.* Women Empowering Women tradeswomen conduct this hands-on workshop. $35-$55. C 213. 10 a.m.-4 p.m. Call 476-5836 to pre-register.*

CASINO ROYALE

Auxiliary of Mount Zion Medical Center/UCSF presents this Monte Carlo night with entertainment, cocktails, dinner, gaming. Fundraiser benefits patient and family education. Stanford Court Hotel, 905 California. 7 p.m. Call 885-7354.*

27 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms — X-rays to screen for breast cancer — from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physician to have the mammogram, in addition to their physician's full name, address (including room number & zip) & phone number to assure results are mailed promptly. The procedure takes approximately 20 minutes & costs $60. To make an appointment call 476-2193 between 9 a.m. & 3 p.m.

Because the service has become so popular and appointments fill up by the time this calendar is published, only dates when the van will be at UCSF locations are listed below:

- June 5: On Parnassus at Medical Cntr. Way.
- July 2: On Parnassus at Medical Cntr. Way.

A mammogram also is available at the Mount Zion radiology department for $50. Call 885-7710.

OTOLARYNGOLOGY GRAND ROUNDS: *Clinical Management of HIV-Related Neoplasms.* Lawrence Kaplan, Med. *Nicotine Dependence Treatment Options.* Timothy Carmody, Health Psych. & Smoking Cessation Clin., VAMC. 8-10 a.m.

VAMC NEURORADIOLOGY ROUNDS. 2A56, VAMC. 9:15-10 a.m.

SPECIAL PATHOLOGY SEMINAR: *Hepatitis B Virus-Specific Cytotoxic T-Cell Response in Man & Transgenic Mice.* Francis V. Chisari, Experimental Path. & Gen. Clin. Res. Cntr., Scripps Res. Inst. S 1364. Noon. (Also see Henry D. Moon Lecture today at 4 p.m.)

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

FRIENDS OF LOIS AL-ANON MEETING: Closed meeting: for friends & families of alcoholics only. Rm. 300C, MCB. Noon.

CORE CURRICULUM IN HEMATOLOGY: *Acquired Disorders of Coagulation: Circulating Anticoagulants, Disseminated Intravascular Coagulation, Liver Disease, Primary Fibrinogeno/Fibrinolysis. Acquired Platelet Disorders: Immune Thrombocytopenia, Thrombotic, Thrombocytopenic Purpura.* Laurence Corash, Lab. Med. L 535. 2-3 p.m.

*Open to the public.

RIEGELMAN LECTURESHIP APRIL 27-MAY 1

Carl C. Peck, director, Center for Drug Eval. & Res., FDA, delivers the following as the Sidney Riegelman Lecturer. Sponsored by Dept. Pharm.

- Mon., Apr. 27: *The Concentration Principle in Drug Development & Regulation.* HSW 303. 4 p.m.
- Wed., Apr. 29: *Changes in Drug Development in the '90s.* HSW 303. 4 p.m.
- Fri., May 1: *Linking Surrogate Endpoints with Clinical Outcomes.* S 1364. 11 a.m.

MOON LECTURE

Molecular Pathogenesis of Hepatocellular Carcinoma in Hepatitis B Virus-Transgenic Mice. Francis V. Chisari, Experimental Path. & Gen. Clin. Res. Cntr., Scripps Res. Inst. The Henry D. Moon Memorial Lecture sponsored by Anat. Path. HSW 300. 4-5 p.m. Reception to follow at Fac. Alum. House.

CVRI/PROGRAM OF EXCELLENCE IN MOLECULAR BIOLOGY SEMINAR: *Voltage-Gated Potassium Channels.* Lily Jan, Physio., Biochem. & HHMI. S 1364. 4-5 p.m.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

HISTORY OF HEALTH SCIENCES COURSE: *History of Homeopathy in the US.* Josef Schmidt, Hist. Hlth. Sci. Toland Hall. 5:30-7 p.m. Call 476-2766.*

INSTITUTE OF HEALING ARTS & SCIENCES WORKSHOP: *Life Energy Awareness for Effective Communication & Clear Relationships.* Stephen Eric Levine, Energy Integration Therapy. $20. N 517. 6-9 p.m. Call 584-4416 to register.*

UCSF AIDS HEALTH PROJECT MEDITATION & SELF-HYPNOSIS WORKSHOP: Weekly discussion group for anyone dealing with HIV or AIDS in themselves or others. Gazebo Rm., Davies Med. Cntr. 7-9 p.m. Call 476-6445.*

28 Tuesday

SALES, SALES, SALES, SALES, SALES, SALES, SALES

Visit the many sales going on this week for Mother's Day & more.*

- Gold & silver jewelry will be on sale, Tues. & Wed., Apr. 28 & 29, to benefit the Hospitals Auxiliary. Visa & Mastercharge accepted. Med. Sci. Lobby. 7:30 a.m.-5 p.m. Call 476-4906.
- Costume Jewelry by Two Bag Ladies.
  - — Mon., May 4: MZ Nosherie. 11 a.m.-2 p.m.
  - — Tues. & Wed., May 5 & 6: Med. Sci. Lobby. 10 a.m.-3 p.m
  - — Thurs., May 7: MCB Lobby. 10 a.m.-3 p.m.
  - — Fri., May 8: 2nd fl. Cafeteria, SFGH. 10 a.m.-3 p.m.
- Moffitt Hospital semi-annual leather sale and fundraiser on Tues.-Thurs., May 5-7. Visa & Mastercharge accepted.Moffitt Hosp. Gift Shop. 8 a.m.-5 p.m.
- Cut garden roses on sale Wed. & Thurs., May 6 & 7. Also half-price Europe discount books & custom photo albums. Benefits the Hospitals Auxiliary. Med. Sci. Lobby. 10 a.m.-5 p.m. Call 476-4906.
- Gifts, candy & nuts on sale Thurs. & Fri., May 7 & 8. Sponsored by Top Hat Produce & Pharmacy II. Also scarves by Hiroko & jewelry by Crystal Chatelaines, Inc. Med. Sci. Lobby. 8 a.m.-5 p.m.

PLASTIC SURGERY GRAND ROUNDS: D & C Conference. Rm. 200 1A-122, VAMC. 7 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: Residents Forum. C 701. 8 a.m.

TRANSFUSION RESEARCH FORUM: *Analysis of HLA Polymorphism by PCR.* Henry Erlich, Human Gen., Roche Mol. Sys. L 535. 8:30 a.m.

NEW EMPLOYEE ORIENTATION: S 214. 8:30 a.m.-12:30 p.m. Call 476-1073.

SFGH PEDIATRIC GRAND ROUNDS: *Carnitine.* H. Terry Hutchison, Ped. & Neuro. Carr Aud., SFGH. 8:30-9:30 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

OB/GYN GRAND ROUNDS: *Reproductive Genetic Testing: Impact on Women.* Elena Gates, Ob/Gyn. S 1364. 9 a.m.

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. A 222, LPPI. 10 a.m.-noon. Help-line at 759-7923 provided daily, 7 a.m.-10 p.m.*

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Cardiac Arrhythmias in Stroke.* Lawrence Clapp, Neuro. S 664. 5-6 p.m.

PSYCHIATRY GRAND ROUNDS: *Systemic Case Formulation: A States of Mind Approach.* Mardi J. Horowitz, Psychr. & Cntr. Study Neuroses. Followed by case presentation. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

SEMINARS IN BIOLOGY SERIES: *γ – Tubulin — A Ubiquitous Component of Microtubule Organizing Centers.* Berl Oakley, Mol. Gen., Ohio State U.. HSW 300. 4 p.m.

CHILD NEUROLOGY CONFERENCE: *Controversies in the Treatment of Parkinson's Disease.* Abraham Lieberman, Barrow Neuro. Inst. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: Resident Case Presentations. HSW 508. 5:30-6:30 p.m.

29 Wednesday

SURGERY GRAND ROUNDS: *Mechanisms of Restenosis after Arterial Reconstruction: Prospects for Pharmacologic Control.* Alexander Clowes, U Wash. Toland Hall. 7-8 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.

DERMATOLOGY CONFERENCE: *New Theories on the Etiology of AIDS.* Marcus Conant, Derm. HSW 301. 8-9 a.m.

NUCLEAR MEDICINE SEMINAR: *Nuclear Medicine Applications in Pediatric Cardiology.* Michael Dae, Rad. & Med. LPPI Aud. 8:30 a.m.

LANDBERG CENTER DISCUSSION: *Sacred Space.* Begin the day with spiritual reflection & sharing. Landberg Cntr. for Hlth. & Healing, 340 Irving. 9:05-9:30 a.m. Call 564-3515.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

BROWN BAG LECTURE SERIES: *Medicine in the Media.* Nancy L. Snyderman, Head & Neck Surg.; Med. Reporter, KPIX & ABC. Sponsored by Campus Tours & Speakers Bureau. HSW 300. Noon. Call 476-4394.*

LANDBERG CENTER SINGLE PARENT SUPPORT GROUP: C 209. Noon-1 p.m. Call 564-3515.*

CONNECTIVE TISSUE SEMINAR: *Matrix Interactions of Recombinant Fibronectin.* Paul W. Johnson, Stom. S 664. Noon-1 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. Rm. 300C, MCB. 12:05 p.m.*

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. Two locations & times: A 222, LPPI, 1-3 p.m., and N 517, 7-10 p.m. Help-line also provided daily, 7 a.m.-10 p.m. at 759-7923.*

30 Thursday

MILBERRY FITNESS SALE

Registration for exercise classes at half-price begins today. MU Fitness Desk. 7 a.m. Call 476-1115.*

ORTHOPEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

MEDICINE GRAND ROUNDS. *CPC.* John F. Murray, Med. & Chest Serv., SFGH. Toland Hall. 8 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Presentations for the National Eye Research Meeting.* Residents, fellows & faculty, Oph. S 214. 8:30 a.m. Followed by case presentation: *Pathology.*

PEDIATRIC GRAND ROUNDS: *Immunity in Newborns & Suppression by HSV.* Anthony Hayward, Ped., U Colo. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

STUDENT ART SHOW

Exhibit of two-dimensional work using a variety of media on Apr. 30 & May 1. Millberry Conf. Cntr. 10 a.m.-6 p.m. Reception at 4 p.m. on Apr. 30. Wind Ensemble of UCSF at 5 p.m. on May 1.*

NEUROLOGY/NEURORADIOLOGY CONFERENCE. HSE 317. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

ONCOGENESIS SEMINAR: *Polyamines as Regulators of Chromatin Structure.* Burt Feuerstein, Lab. Med. S 664. Noon.

OVEREATERS ANONYMOUS MEETING: Regular OA meeting. C 517. Noon-1 p.m.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEUROSCIENCE SEMINAR: *Opioid Regulation of Ion Conductance in the Hippocampus: From Channels to Circuits.* Charles Chavkin, Pharm., U Wash. HSW 300. 4 p.m.

NEURORADIOLOGY CLINICAL CASE ROUNDS. HSW 303. 4 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Restriction Enzymes as a Model System for DNA Damage & Repair.* Barbie Yates, Rad. Onc. L 34. 5:30 p.m.

COLE HALL CINEMA: *Bugsy.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees (today only) $3; general $3.50. Cole Hall. 5:45 & 8:30 p.m. (Movies subject to change.)*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A222. 6 p.m.*

1 Friday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICINE GRAND ROUNDS. Herbst Hall, MZ. 8:30-9:30 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *The Intelligence of Prenatally Drug-Exposed Infants.* Delmont Morrison, Psychr. & Child & Adol. Psychr. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: (See Riegelman Lectureship under Apr. 27.) S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Recombinant Gonadotropins & Their Receptors.* Aaron Hsueh, Gyn. & Ob., Stanford. S 664. Noon-1 p.m.

INSTITUTE OF HEALING ARTS & SCIENCES LECTURE: *Family Harmony.* Mark Libowitz, Family Harmony Inst. N 721. Noon. Call 584-4416. (See workshop, Mon., May 4.)*

OVEREATERS ANONYMOUS MEETING. Rm. 300C, MCB. 12:05 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. C 417. 12:10-1 p.m.*

COLE HALL CINEMA: *Bugsy.* Children under 14 $2; UCSF students & MU members $2.50; students & seniors $3; general $3.50. Cole Hall. 6:30 & 9:15 p.m. (Movies subject to change.)*

2 Saturday

ANESTHESIA GRAND ROUNDS. HSW 301. 8-10 a.m.

WOMEN'S RESOURCE CENTER CONFERENCE: *Getting on the Academic Ladder: The Jump from Postdoc to Professor.* Panel discussion. $5. N 517. 9 a.m.-2 p.m. Call Sara Alhgren at 476-0604 to pre-register.*

LOW VISION FORUM: Lou Marracci, Telephone Pioneers of America, talks about how he & other members helped during the Oakland firestorm. Meetings held on first Saturday of each month. Main foyer, ACC. 11 a.m.-1 p.m. Call Frances Neer at 626-5313 for information.*

April 25-May 8, 1992

4 Monday

IT'S NURSES WEEK

(See page 8 for details.)

OTOLARYNGOLOGY GRAND ROUNDS: *New Advances in Pediatric Audiology & Programmable Hearing Aids.* Carole Shelton, Robert Sweetow & Toni Will, Aud. & Speech, Oto. *Tuberculosis Update.* Gisela Schecter, Med. S 214. 8-10 a.m.

VAMC NEURORADIOLOGY ROUNDS. 2A56, VAMC. 9:15-10 a.m.

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

FRIENDS OF LOIS AL-ANON MEETING: Closed meeting: for friends & families of alcoholics only. Rm. 300C, MCB. Noon.

CORE CURRICULUM IN HEMATOLOGY: *Laboratory Testing for Pre-Operative Hemostatic Evaluation Laboratory Management of Anti-Coagulant Therapy: Evaluation of Platelet Function for Surgical Procedures.* Jack Levin, Lab. Med. L 535. 2-3 p.m.

TRANSFUSION MEDICINE LECTURE: *Current Approaches to Platelet Transfusion Therapy.* Sherrill Slichter, Puget Sound Blood Cntr., Seattle. HSW 300. 4-4:50 p.m. Followed by reception. Call 476-4678.*

LABORATORY MEDICINE GRAND ROUNDS. L 535. 4-4:50 p.m.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

URORADIOLOGY CONFERENCE. M 464. 5-6 p.m.

HISTORY OF HEALTH SCIENCES COURSE: *History of Homeopathy in the US.* Josef M. Schmidt, Hist. Hlth. Sci. Toland Hall. 5:30-7 p.m. Call 476-2766.*

INSTITUTE OF HEALING ARTS & SCIENCES WORKSHOP: *Family Harmony Institute: Applications with Dysfunctional Families.* Mark Libovitz, Family Harmony Inst. $20. N 517. 6-9 p.m. Call 584-4416 to register.*

UCSF AIDS HEALTH PROJECT MEDITATION & SELF-HYPNOSIS WORKSHOP: Weekly discussion group for anyone dealing with HIV or AIDS in themselves or others. Gazebo Rm., Davies Med. Cntr. 7-9 p.m. Call 476-6445.*

5 Tuesday

PLASTIC SURGERY/ORTHOPEDIC HAND SURGERY GRAND ROUNDS: Problem Cases. Davies Med. Cntr. 7 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

COMBINED ORTHODONTIC/ORTHOGNATHIC SURGERY CONFERENCE: *Bone Induction & Implant Interface.* Arnold Kahn & Ann Marie Vogel, G & D. C 701. 8 a.m.

VOLUNTEER ORIENTATION: To acquaint new & potential volunteers with opportunities available in the Medical Center at UCSF. LPPI Aud. 9-11 a.m. Call 476-1196 for information.*

OB/GYN GRAND ROUNDS: *Impact of Diabetes on Embryogenesis.* Thomas Buchanan, Med., USC. S 1364. 9 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. A 222, LPPI. 10 a.m.-noon. Help-line at 759-7923 provided daily, 7 a.m.-10 p.m.*

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

CAMPUS AMNESTY INTERNATIONAL MEETING: Meets the first Tuesday of each month. MU 111. Noon-1 p.m.

MEDICAL ANTHROPOLOGY SEMINAR: *Anthropology & Aging on the UCSF Campus 1975-1992.* Margaret Clark, Linda Mitteness & Colleen Johnson,. Med. Anth. CSBS 218. Noon-1 p.m.

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

6 Wednesday

SURGERY GRAND ROUNDS. Toland Hall. 7-8 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Occupational & Environmental Health in the Maquiladoras of Baja California.* Teodoro Orantes Martinez, UNAM, Tijuana. A 455. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *The TSH Receptor & Its Relevance in Thyroid Disease.* Salvatore Aloj, Med. & Mol. Path., U Naples, Italy. M 1486. 8:30 a.m.

NUCLEAR MEDICINE SEMINAR: *Radiation Safety: Refresher Course, Part 2.* Ara Tahmassian, Env. Hlth. & Safety. LPPI Aud. 8:30 a.m.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

CONNECTIVE TISSUE SEMINAR. S 664. Noon-1 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. MCB, Rm. 300C. 12:05 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. Two locations & times: A 222, LPPI, 1-3 p.m., and N 517, 7-10 p.m. Help-line also provided daily, 7 a.m.-10 p.m. at 759-7923.*

SEMINARS IN BIOLOGY SERIES: *Cell Interactions during Early Neural Development.* Chris Kintner, Mol. Neurobio. Lab., Salk Inst. HSW 300. 4 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Limb Salvage Procedures.* James Johnston, Orthosurg. HSW 508. 5:30-6:30 p.m.

7 Thursday

WOMEN & HIV MAY 7 & 8

HIV Update: Women & HIV. AIDS researchers & community groups discuss issues in the care of women with HIV infection. Laurel Heights Conf. Cntr. (See story on page 1.)

ORTHOPEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

SAMPSON LECTURER

Factors Responsible for the Conversion from Chronic to Acute Coronary Heart Disease Syndrome. James T. Willerson, Int. Med., U Texas. Sponsored by Dept. Med. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *Natural History of Asthma.* Louis Landau, Ped., U West Australia. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

NEUROLOGY/NEURORADIOLOGY CONFERENCE. HSE 317. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

INMAN/ ABBOTT LECTURES

Roby C. Thompson, Orth. Surg., U Minn. Sponsored by the Dept. Orth. Surg. & the LeRoy C. Abbott Orth. Society.

- Thurs., May 7: *Joint Trauma & Osteoarthritis: Is It Reversible?* The Verne T. Inman Lectureship. Cole Hall. 11:30 a.m.
- Fri., May 8: *What Can Your Patient with a Sarcoma Expect in 1992?* The LeRoy C. Abbott Orthopedic Society Visiting Professorship. Cole Hall. 11 a.m.

ONCOGENESIS SEMINAR: *Role of Urokinases in Tumor Metastases.* Robert Cohen, CRI. S 664. Noon.

OVEREATERS ANONYMOUS MEETING: Regular OA meeting. C 517. Noon-1 p.m.

DENTISTRY DEAN'S SEMINAR: *Transduction Mechanisms in the Pain Pathway.* Jon Levine, Med., Anat., Oral & Max. Surg., & Neurobio. C 701. 12:30-1:45 p.m.

NEURORADIOLOGY CLINICAL CASE ROUNDS. HSW 303. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

NEUROSCIENCE SEMINAR: *The Biology of Sexual Orientation.* Simon LaVay, Inst. Gay & Lesbian Educ., West Hollywood. HSW 300. 4 p.m.

PRIMARY CARE GRAND ROUNDS: *The Pharmacological Management of Depression in Patients over 65.* R. Ron Finley, Pharm. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Radiology Case Presentations: Bone.* Clyde A. Helms, Rad. HSW 303. 5:15-6:15 p.m.

COLE HALL CINEMA: *The Hand That Rocks the Cradle.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees (today only) $3; general $3.50. Cole Hall. 5:45 & 8 p.m. (Movies subject to change.)*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A 222. 6 p.m.*

COMMUNITY HEALTH TALK: *The Biology of Human Aging.* Leonard Hayflick, Anat. Sponsored by Public Serv. Outreach Prog. Free parking available. Toland Hall. 7-8:30 p.m. Call 476-8429.*

8 Friday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

  Quincentennial Marketplace. Opened by Rodolfo Figueroa, Council General of Mexico, followed by Ballet Folklorico, mariachi music & plenty of food & fun. Saunders Court. Noon-2 p.m.

Anna Chavez

- Thurs., May 7: *Health Issues Relating to Mexico & California.* Jose Ignacio Santos, pediatrician, Children's Hospital, Mexico City. Toland Hall. Noon.

  Flamenco Dancers. Plaza Grill. 1-2 p.m.
- Fri., May 8: Raffle Drawing & Peruvian Music. Winner chosen for Cabo San Lucas trip. Plaza Grill. Noon.

  Cinco de Mayo Dance. Enjoy live music & raise funds for relief in Bolivia. $5-$10. Co-sponsored by Cordilliera Project & ASUCSF. Millberry Gym. 8 p.m.-12 a.m.

Benefits/Personnel

On April 1, You Came into Some Extra $$$$$

On April 1, a sum of money was allotted into an account for you, if you were eligible. This supplemental benefit provided by the UC Retirement Plan (UCRP) is called the Capital Accumulation Provision, or CAP.

This is the first of three such payments provided to UCRP members in this new benefit, scheduled as follows:

- **April 1, 1992:** An amount equal to 5% of your "covered compensation" paid by UC for the calendar year 1991. Covered compensation refers to your base UC salary. Overtime, additional appointments and most stipends are not included.
- **July 1, 1992:** An amount equal to 2.5% of covered compensation for the pay period from July 1, 1991, to June 30, 1992.
- **July 1, 1993:** An amount equal to 2.5% of covered compensation for the pay period July 1, 1992, to June 30, 1993.

Those eligible for the first CAP allocation include employees who were active UCRP members on April 1, 1992, and who were employed by UC continuously from January 1 to April 1, 1992.

The CAP accumulations will be available when a member retires and will be paid as a single lump sum in addition to retirement income. UCRP members who leave UC without retiring will receive the CAP payment only when they request a refund of accumulations, or, after July 1, 1992, a lump sum cashout of their UCRP benefits. The CAP payment is not available alone.

Interest on the CAP account will be credited monthly at a fixed rate based on the assumed earnings of the Plan, currently 8.5% per year.

Those eligible for the April 1 payment will receive a statement in June showing the amount. If you have questions, see your department's benefits rep.

Neighborhoods Now Involved in UCSF's Long Range Planning

The first round of community workshops on UCSF's new Long Range Development Plan (LRDP) ended recently with campus officials promising to keep wary neighbors and community leaders fully informed about the process.

Those who attended the four meetings during March in the Bayview-Hunters Point, Mission, Laurel Heights/Western Addition, and Parnassus neighborhoods asked tough questions, but seemed to take a wait-and-see attitude as planning officials outlined options for developing critically needed space at UCSF.

The new Community Advisory Group (CAG), made up of leaders from various neighborhood, political, and ethnic groups, also met for the second time in March to help UCSF prepare a growth plan for the next 15 years. Vice Chancellor Bruce Spaulding told the group that UCSF is working hard to avoid mistakes of the past and to ensure that any future plans have the support of the community.

Concerns raised at the meetings ranged from questions about services and jobs UCSF might bring to economically disadvantaged neighborhoods to pleas to keep development out of residential neighborhoods. No consensus emerged from the meetings regarding which growth concept should be pursued — creating additional satellite sites, clustering growth near current sites, or developing a major new site.

Community workshops and CAG meetings will be held throughout the planning process. The next series of meetings soon will be scheduled.

Police Alerts: Theft, Threatening Calls

The Campus Police Department recently issued two alerts, one regarding theft on campus and another regarding threatening phone calls.

The telephone calls were received by three families living at Aldea San Miguel, the married student housing. In each incident, the caller stated to the wife that the husband had been kidnapped and was being held captive at gunpoint. The suspect requested ransom and made demands of the family as conditions for releasing the husband. Each incident turned out to be a hoax. If you receive such a call — or any threatening telephone calls — or have any information related to these calls, be sure to call the Campus Police at 476-6890.

The theft incidents took place on April 10 and involved several stolen wallets and personal possesions from the nursing building, Koret/Beckman Vision Center and the Proctor Foundation. In all cases, the wallets were taken from purses in unattended and unlocked offices. The suspect is described as a black male in his late teens or early 20s, approximately 6 feet 2 inches tall, slender build with short curly hair. Again, if you have any further information, call the number above.

The police suggest several ways to lessen your chances of becoming a victim of theft:

- Lock your valuables in secured desks, cabinets or closets.
- Never leave property unattended.
- Keep your house/car keys with you.
- Call the UCSF Police regarding any suspicious activities or persons.
- If you leave your office unoccupied, lock the door.
- Work together with colleagues to keep an eye on one another's offices and property.

Fund Performances

For those invested in the 403(b) Plan and the After-tax plan, here are the latest unit values and monthly factors (as of March 31, 1992). The newly reported "annualized yield" reflects the annual yield that could be achieved if the current monthly rate were compounded for one year.

	Monthly Factors	Annual Rate	Annualized Yield
Savings	.0066	7.81%	7.99%
Money Mkt	.0036	4.25%	4.28%
ICCF	.0072	8.47%	8.70%

	Unit Value	1-Month Change	12-Month Change
Bond	$48.63	-1.1%	13.4%
Equity	$82.25	-0.8%	12.4%
Multi-Asset	$12.25	-0.2%	10.5%

The investment results, as measured by total return figures given above, represent past performance and should not be considered indicative of future results. If you have questions, please call 476-9256.

Fun Zone

Run, Walk or Rollerblade — or All Three

If you're fond of stretching the old leg muscles a bit, here are three events that should interest you:

- **16th Annual May Day Run.** Sunday, May 3, in Golden Gate Park, 9 a.m. Run for UCSF in the Hospital Challenge. The race benefits the American Heart Association. Call Jimmy Choy at 476-5506 to sign up.
- **Take a Tip from the Rollerblading Pros.** The UCSF Rollerblade Club and Skatepro are sponsoring two events for those who would like to roll around on the asphalt and learn some techniques from the pros. Saturday, April 25, and Saturday, May 9, at 10th Avenue off of JFK in Golden Gate Park (near the museums),10 a.m. to 12:30 p.m. both days. Rollerskaters and rollerbladers welcomed. On each date, the first eight skaters to show up will receive two hours of free skate rental. For further information, call Alan Tower, 476-0356.
- **3-Mile Fun Walk.** Wednesday, May 13, starting at the Children's Playground in Golden Gate Park at noon. Sponsored by EMPACT!, Health Net and TakeCare in conjunction with National Employee Health & Fitness Day. Participants get a T-shirt and a goodie bag. Use the form below to sign up. (Special entry form for centipedes — 12 or more walkers. Call EMPACT!, 476-2675.)

YES, sign me up for the "3-Mile Fun Walk!"

I have enclosed my $5 entry fee check made out to "UC Regents." Deadline date Friday, May 8. On-site registration $10. Pre-registered walkers will be sent via campus mail a number and a map of the walk.

Name: _____

Campus address (Box number): _____

Campus phone number: _____

Return to: EMPACT!, Box 0234A

UCSF Council Board Nominations

All employees at UCSF who are not represented by unions should have received in campus mail by now a call for UCSF Council board nominations and a copy of the Council's bylaw changes. Nominations for the board are due by Thursday, April 30. The nominees then will be contacted and ballots will be sent to all Council members for a vote. We'll announce the new board members in a future issue of *Newsbreak*. For further information call Victoria Stephens, UCSF Council chair, 476-9977.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Emmanuel C. Adusara, principle clerk, medical center: clinical labs.

Mary Sue Allen, administrative assistant II, medicine.

Elaine C. Arcilla-Mondares, staff research associate II, CVRI.

Macario R. Asistio, principle clerk, animal care facility.

Kenneth M. Ates, hospital assistant II, medical center: radiology.

Cecilia Barerena, clerk, LPPI: instruction & research.

Jazmine I. Bergeron, administrative assistant III, medical center: pediatric intensive care.

Norman Lee Wong, senior food service worker, nutrition & dietetics.

Elizabeth A. Wren, lab assistant, pediatrics.

Stephen J. Wynne, hospital dispatcher, inpatient pediatric intensive care.

Zhijian Xu, staff research assistant I, neurology.

Marci A. Yellin-Kinace, administrative assistant II, Institute for Health Policy Studies.

Skariex Yep-Liang, assistant II, epidemiology & international health

Bobbie J. York, recruiter, medicine/SFGH.

Yvonne L. Young, administrative analyst, urology.

Service Awards

Susan C. Alfaro, 10 years, nursing.
Nenita F. Arroz, 15 years, surgery, Mount Zion.
Fernando Avila, 25 years, materiel management.
Linda J. Barlow, 10 years, pediatric rehabilitation, Mount Zion.
Nancy A. Barret, 10 years, LPPI.
Carole Bayer, 25 years, clinical labs.
Kimberly N. Beliveau, 15 years, nursing.
Susan J. Benner, 10 years, hospital admissions.
Maximo R. Buada, 10 years, materiel management.
Edna Q. Calaustro, 15 years, surgery.
Yee-May Emily Chan, 15 years, clinical labs.
Oak Jin Choi, 10 years, LPPI.
Marie Conroy-Salbi, 15 years, urology.
Dolores V. Dougherty, 20 years, neurological surgery.
Armando V. Dumlao, 20 years, environmental services, Mount Zion.
Govelay G. Elizondo, 20 years, transportation services.
Mark K. Fitzgerald, 15 years, central services, Mount Zion.
Joanne Foon, 15 years, operating room.
Sharon S. Foong, 15 years, admitting, Mount Zion.
Floral Franklin, 10 years, materiel management.
Maria Frias, 10 years, outpatient clinics.
Francis W. Gadayan, 10 years, materiel management.
Elizabeth Hannegan, 10 years, neurosurgery.
Jennifer Henke, 15 years, hospital information systems.
Susan Huberty, 15 years, clinical labs.
Helen Jackson, 15 years, dialysis, Mount Zion.
Jacquelyn H. Jackson, 10 years, clinics registration.
Patricia Jasperson, 10 years, ob/gyn.
Nancy Joe, 15 years, medical records, Mount Zion.
Julia Johnson, 20 years, radiology.
Ayyut A. Khalik, 10 years, mailroom, Mount Zion.
Paul A. Kolsanoff, 20 years, Instructional & Research Support Services.
Lael Lambert, 10 years, nursing.
Nancy R. Lawson, 15 years, anatomy.
Joyce Lehmann, 20 years, clinical labs.
Sharon M. Lemieux, 10 years, ambulatory services, Mount Zion.
Chester L. Lim, 10 years, X-ray, Mount Zion.
Salamah Locks, 10 years, nursing.
Margaret Longley, 10 years, nursing.
Calvin D. Lou, 10 years, surgery/immunogenetics lab.
Jenny Louie, 10 years, nursing.
Kristine A. Louie, 20 years, patient escort services.
Warren P. Lubich, 30 years, neurological surgery.
Nena F. Mangampat, 15 years, radiology.
Luz (Angie) Mariano, 15 years, LPPI.
Susan W. Maurino, 15 years, social services, Mount Zion.
Matricia Mayfield, 10 years, post anesthesia surgery.
Winnie McKinnon, 20 years, clinical labs.
Joyce M. McKinney, 10 years, Dean's Office, School of Medicine.
Nancy H. McManus, 15 years, medicine, SFGH.
Jacinta E. Medina, 20 years, Laboratory of Radiobiology & Environmental Health.
Kathy Mello, 15 years, medicine.
Rosario S. Mercado, 20 years, Dean's Office, School of Pharmacy.
Julie Michler, 10 years, general medicine.
Charene L. Minnis, 10 years, pediatrics, Mount Zion.
Wanda G. Monroe, 10 years, respiratory services, Mount Zion.
Caroline Morris, 15 years, nursing.
James E. Moser, 10 years, nursing.
Judith Mozesson, 10 years, pharmaceutical chemistry.
Kasumi Murakamik, Dean's Office, School of Pharmacy.
Teresa Murillo, 20 years, clinical labs.
Maria L. Naravaez, 20 years, nephrology, SFGH.
Nancy R. Newton, 15 years, pediatrics.
Lucy Nguyen, 10 years, nursing.
Lora L. Nunes, 20 years, urology.
Pauline Nzerem, 10 years, laundry & linen services.
Margaret M. O'Brien, 10 years, anesthesia.
Hazel M. Odom, 15 years, surgery, Mount Zion.
Nicanor Orlina, 15 years, mail services.
Rebecca E. O'Rorke, 15 years, ob/gyn.
Eileen O'Sullivan, 10 years, radiology.
Carmen Palarca, 20 years, clinical labs.
Katie Palmer, 10 years, LPPI.
Mary E. Pastor, 20 years, hospital admissions.
Gary Pelzner, 10 years, nursing.
Callie Pierce, 10 years, nursing.
Clinton R. Preston, 15 years, capital resources management.
Lynda Purves, 15 years, nursing administration.
Dorothy C. Ramirez, 15 years, surgery, Mount Zion.
Julie S. Ransom, 10 years, pharmaceutical chemistry.
Neil W. Ratzlaff, 10 years, radiology.
Ann M. Ravara, 15 years, urology.
Victoria Restani, 10 years, nursing.
John F. Rigod, 15 years, pharmacy.
Wilbert Rimper, 10 years, police department.
Marlene C. Roberts, 25 years, biochemistry.
Gabriel David Robinson, 15 years, materiel services.
Gary F. Rodriquez, 10 years, emergency, Mount Zion.
Dwight N. Rupp, 20 years, pharmaceutical services.
Susan K. Ryburn, 15 years, LPPI.
Natividad Q. Salinas, 15 years, environmental services.
Felicidad J. Salumbides, 20 years, LPPI.
Ernest San Juan, 10 years, clinical labs.
Sergio Sarzo, 10 years, hospital information systems.
Rosemarie S. Scardino, 10 years, EEG.
Bilal Shabazz, 10 years, student academic services.
Jill Slocum, 10 years, LPPI.
Debra L. Smith, 15 years, ob/gyn.
Joyce E. Smith, 20 years, pharmaceutical services.
Rose E. Snell, 20 years, dialysis center.
Sally Soper, 10 years, alumni affairs.
William C. Stevens, 15 years, student business services/campus housing.
Hubert E. Sylvester, 10 years, Dean's Office, School of Pharmacy.
Natasja T. Szwed, 10 years, ob/gyn.
Bobby R. Terrell, 15 years, anesthesia.
Madhuri Thathachari, 10 years, dermatology.
Gloria D. Thomas, 10 years, surgery, Mount Zion.
Tracy V. Thomas, 15 years, receiving, Mount Zion.
Gerard E. Thomson, 15 years, central services, Mount Zion.
Kira Tiedgens, 15 years, general medicine.
Giuliano Tuccori, 10 years, capital resources management.
Teresita J. Tumakay, 15 years, surgery, Mount Zion.
Sharron Tune, 10 years, Cardiovascular Research Institute.

Medsounds Continued

Now: Library Access in Moffitt-Long

On April 1, a pilot terminal went into service on 10 Moffitt South to provide access to the Library's online systems. On May 1, a second terminal will go into service on 14 Long, and the location of a third terminal is tentatively set for 11 Moffitt.

The three test terminals are being installed in the Medical Center as part of an effort to provide access to the Library's systems from other sites, according to Gail Persily, the Library's acting coordinator of instructional resources.

From the Moffitt-Long terminals, house staff and nursing personnel can access the UCSF Library Catalog and the Melvyl System® databases, including Medline®. At UCSF, Medline is probably the most commonly used of all the databases, says Gail. Through Medline, users can search for articles on any biomedical subject, and pull up citations from among 4,000 journals. The information provided also includes an abstract of the article. The eight databases on Melvyl also include the Melvyl Catalog, which contains the publications of the libraries of all nine UC campuses.

Instigated by the need for library access terminals in charting rooms, conference rooms and other locations in the Medical Center, several groups — including Hospital Information Systems (HISD), the clinical faculty, Nursing and the Library — started working on the project last December. HISD provided all of the equipment and staff for the installation, and HISD and the Library will be monitoring the response to the pilot terminals.

In addition to inservices being provided to staff, instructions on how to use the terminals are posted at each station and handouts on how to search the databases are located nearby.

For further information on how to use the Library's catalog or databases, call Gail Persily at 476-3766 or Jim Mackie at 476-1144. If you need technical assistance for using the terminals, call the HISD Help Desk, 476-4611.

Nursing's Salamah Locks (right) takes a lesson on the terminal from the Library's Gail Persily.

Random Shots

Sue Haikalis

Years at Mount Zion: 13

Position: Director of Patient & Family Services and program coordinator for HIV services at Mount Zion. Patient & Family Services includes social work and discharge planning.

To note: She is the 1992 national president of the Society for Hospital Social Work Directors. Recently presided over the Society's 27th annual meeting in San Francisco.

Personal: Is married to Peter Haikalis, an expert in Slavic languages and former professor of Russian, now turned academic librarian (employed at SFSU since 1979). Daughter Joanna is a senior at the University of Nevada at Las Vegas, majoring in hotel administration. The whole family is very active in the Greek community (through Peter's roots — Sue is Welsh). In addition to a number of involvements with Greek community service activities, both Sue and Peter sing in the choir at their church. Sue was featured in the most recent *Hellenic Journal*, California's Greek community newspaper, which focused on her numerous personal and professional accomplishments.

Background: Grew up in Massachusetts, graduated from the University of Michigan with a BA in Sociology; then got a master's in social work at New York University. After a brief time as an outpatient social worker she came to California with her husband and — in her mid 20s — took a job as director of Social Services at Riverside Community Hospital. The following decade included several years as a medical social work consultant and a move back to the East Coast — where Sue was program director for the Association for Advancement of the Mentally Handicapped in Princeton, NJ — before the Haikalis family moved back to the West Coast and settled in the Berkeley hills (for good).

She's a little busy right now: How is it that the people who put a lot of energy into one area often are the ones putting a lot of energy into several other areas as well? We have a good example here. Check at work, check with the Society, check with the Greek community, and with Alameda County and the City of Berkeley. You'll find her everywhere. *And busy.* But overloaded? Maybe not. For instance, her national presidency this year includes a good bit of long-distance travel that could lean toward overload, but apparently she doesn't see it that way. "Peter usually can arrange to go with me," she says. And after a full day of working on health issues, she joins her husband for a look around the town. Next stop: Ottawa.

137 from UCSF are "Best Doctors"

A new book, *Best Doctors in America*, lists 3,850 doctors whom the authors have determined to be the most highly regarded 1% of the nation's 350,000 practicing physicians.

Authors Steven Naifeh and Gregory W. Smith, along with a team of pollsters, asked "tens of thousands of doctors across the nation" in about 350 specialties the following question: "If a friend or loved one came to you with a medical problem in your field of expertise, and for some reason you couldn't handle the case, to whom would you send them?"

The resulting list includes 137 UCSF physicians, listed below.

Naifeh and Smith also authored *Best Lawyers in America*, now in its fifth edition, which, according to publisher Woodward/White, is "the premier referral guide to the legal profession." The authors, both lawyers, have produced 11 works, including *Jackson Pollock: An American Saga*, winner of the 1990 Pulitzer Prize for biography.

Bernard Alpert, plastic & reconstructive surgery
Jorge Alvarado, ophthalmology
William Amend, nephrology/kidney transplant
Nancy Ascher, transplant
Neal Benowitz, clinical pharmacology
Bruce Berg, child neurology
Neal Birnbaum, rheumatology
Elias Botvinik, nuclear medicine/nuclear cardiology
David Bradford, orthopedic surgery/spine surgery
Harry Buncke, plastic & reconstructive surgery
Michael Cahalan, anesthesiology/adult cardiovascular
George Cassady, neonatal/perinatal medicine
Joseph Castro, radiation oncology/particle beam radiation
Ralph Cavalieri, endocrinology & metabolism
Devron Char, ophthalmology
Kanu Chatterjee, cardiovascular disease
Orlo Clark, general surgery/endocrine surgery
Felix Conte, pediatric endocrinology
Bonnie Dattel, ob/gyn
Richard Davis, pathology
Haile Debas, general surgery/gastroenterologic surgery
Herbert Dedo, otolaryngology/laryngology
Michael Edwards, neurological surgery
William Ehrenfeld, vascular surgery
Glen Elliott, child psychiatry
John Epstein, dermatology/photobiology
Robert Fishman, neurology/infectious & demyelinating disease
Oscar Frick, pediatrics/pediatric allergy & immunology
Ilona Frieden, dermatology/pediatric dermatology
Karen King-Wah, radiation oncology/brachytherapy
Gordon Gamsu, radiology/chest
Edward Goetzl, allergy & immunology
Mitchell Golbus, ob/gyn, genetics
Jerry Goldstone, general surgery/vascular surgery
William Goodson, surgical oncology/breast cancer
Frank Gotch, nephrology, dialysis
Gilbert Gradinger, plastic surgery
Richard Greenberg, psychoanalysis
Daniel Greenson, psychoanalysis
Francis Greenspan, endocrinology & metabolism
George Gregory, pediatrics/anesthesiology
Roy Grekin, dermatology/skin cancer surgery
Jerry Griffin, cardiovascular disease/pacemakers
Melvin Grumbach, pediatric endocrinology
Philip Gutin, tumor surgery/stereotactic radiosurgery
Van Halbach, neuroradiology
Francine Halberg, radiation oncology/breast cancer
Robert Hales, neuropsychiatry
Craig Henderson, oncology & hematology/breast cancer
John Hetherington, ophthalmology/glaucoma
Melvin Heyman, pediatric gastroenterology
Grant Hieshima, neuroradiology
Charles Higgins, radiology/cardiovascular disease
J. Donald Hill, thoracic surgery/cardiothoracic surgery
Juilien Hoffman, pediatric cardiology
Philip Hopewell, lung infections/AIDS
H. Dunbar Hoskins, ophthalmology/glaucoma
Creig Hoyt, pediatric ophthalmology
William Hoyt, neurology/neuro-ophthalmology
Thomas Hunt, wound healing
Robert Jackler, otology/neurotology
Robert Jaffe, reproductive endocrinology
James Johnston, orthopedic surgery/tumor surgery
Selna Kaplan, pediatric endocrinology
John Karam, diabetes
Barry Kogan, pediatric urology
Steven Kramer, corneal diseases & transplantation
Michael Lagios, breast pathology
Russell Laros, maternal & fetal medicine
David Larson, radiosurgery/brain cancer
Robert Layzer, neuromuscular disease
Charles Linker, leukemia
John Luce, pulmonary & critical care medicine
Tom Lue, urology/impotence
Howard Maibach, psoriasis/contact dermatitis
Dennis Mangano, cardiovascular
Roger Mann, foot & ankle surgery
Joseph Martin, neurology/movement disorders
Mary Martin, reproductive endocrinology
Stephen Mathes, plastic surgery
Michael Matthay, pulmonary & critical care medicine
Robert Gordon Miller, neuromuscular disease
Ronald D. Miller, anesthesiology/pharmacology
John Mills, infectious diseases/AIDS
Jerome Motto, suicide
John Murray, pulmonary disease/critical care medicine
Richard Myler, cardiac catherization
Philippa Newfield, pediatric anesthesiology
David Norman, neuroradiology
Robert Nozik, ophthalmology/uveitis
Richard Odom, dermatology
Fred Orkin, complications of anesthesia
Douglas Ousterhout, craniofacial surgery
John Owsley, plastic surgery
William Parmley, cardiovascular disease
Carlos Pellegrini, gastroenterologic surgery
Irving Phillips, child psychiatry
Ted Phillips, radiation oncology/head, neck & gynecologic cancer
Donald Potter, pediatric nephrology
Vera Price, dermatology/hair disorders
Scott Rankin, cardiothoracic surgery
Neil Raskin, neurology/headaches
Owen Renik, psychoanalysis
Victor Reus, psychiatry/affective disorders
Abraham Rudolph, pediatrics/pediatric cardiology
Merle Sande, AIDS/endocarditis
Howard Schatz, retinal diseases
Gisela Schector, lung infections
Melvin Scheinman, electrophysiology
Nelson Schiller, echocardiography
Ted Schrock, colon & rectal surgery
Calvin Settlage, child psychiatry/psychoanalysis
Dean Sheppard, asthma
Sol Shnider, obstetric anesthesiology
Norman Silverman, pediatric cardiology
Mark Singer, otolaryngology/laryngology
David Smith, addiction medicine
Paul Stanger, pediatric cardiology
Ronald Stoney, vascular surgery
Richard Sweet, ob/gyn, infectious diseases
Emil Tanagho, neuro-urology/voiding dysfunction
Lenore Terr, child psychiatry
Denny Tuffanelli, dermatology/cutaneous immunology
Jack Tupper, orthopedic surgery/ peripheral nerve surgery
Blake Tyrrell, neuroendocrinology
Paul Volberding, AIDS
Peter Volpe, colon & rectal surgery
Robert Wallerstein, psychoanalysis
Diane Wara, pediatric allergy & immunology
Wiliam Wara, pediatric radiation oncology
Lawrence Way, gastroenterologic surgery
Richard Webb, radiology/chest
Edward Weinshel, psychoanalysis
Mary Williams, pediatric dermatology
Charles Wilson, neurological surgery
Bruce Wintroub, dermatology/allergic reactions
Lowell Young, transplantation infections

In Vitro Program Has a New Niche in the ACC

The Surgery Center on the ground floor of the ACC has a new neighbor: Right across the hall in Room A 93, a small space has been carved into treatment rooms and a laboratory for the In Vitro Fertilization Program.

The newly renovated quarters have given the program the opportunity for expanded services, according to Mary Martin, IVF Program medical director.

The expanded service is supported by a new affiliation between the IVF Program and basic science researchers in reproductive medicine. "The IVF program is well established clinically, so it was a natural next step to collaborate with a UCSF research unit," says Martin.

The IVF research component is directed by Roger Pederson, professor of radiology and anatomy. His areas of research include embryology, reproduction and developmental genetics. He also serves as director of the IVF laboratory, where his research is translated into IVF procedures.

The first child was born through the UCSF IVF program in 1984, and since that time about 200 children have been delivered after successful IVF procedures.

IVF is most often used to help women with blocked fallopian tubes, but it also can be used for several other causes of infertility. In the IVF procedure, eggs are removed from the ovaries, fertilized outside the body, and then reimplanted in the uterus. When fertilization is not achieved, further techniques are sometimes used — such as cutting the outer covering of the egg (called the "zona"), or injecting sperm between the zona and the egg. For some women, pregnancy is more likely to occur if eggs or embryos are transferred into healthy fallopian tubes rather than the uterus.

Martin is joined by Eldon Schriock and Robert Glass to form the IVF medical team. Pramila Dandekar and Carl Martin serve as the embryologists — i.e., they do the petri glass fertilizations. Debbie Jaffe is the nurse coordinator for the program; Vicki Sweet is the administrative coordinator, and Danna DeKock is the ovum donor coordinator.

About 10-12 percent of American couples have trouble conceiving a child. In this group, sperm dysfunction is a major factor in about 40% of patients. In the UCSF program, Jan Breza, visiting associate professor of urology, specializes in male infertility.

In Memory of a CF Patient

On behalf of her colleagues, 11 Moffitt's Melissa Schniewind forwarded the following item:

In Memory of John Koziol: *A patient with cystic fibrosis who inspired many who worked with him with his courage and strength under adverse circumstances. He touched the hearts of staff members of 11 Moffitt/Medicine & Dermatology and members of the Respiratory Care Department. The staff of 11 Moffitt has made a donation of $545 in his name to the Cystic Fibrosis Research Center at UCSF. He was 23.*

Happy Nurses Week to All 2,075 of You!

In case you were wondering how many nurses hold down the fort at the collective UCSF sites, Personnel's Alice Plebuch pulled the numbers out of her computer: Add up the nursing personnel in Moffitt-Long, the ACC and Mount Zion and you get a grand total of 2,075!

The week of May 4 has been set aside as UCSF Nurses Week to celebrate this vast group — and a committee of about 20 nurses from all the sites has put together an eventful agenda to mark the occasion. See below for the full schedule of events. Here are details on a few of the highlights:

Top Nursing Awards To Be Presented

At the Parnassus site, eight major nursing awards are presented in the spring — three in conjunction with Founders Day and five during Nurses Week. The five who will receive their awards at the reception on Wednesday, May 6, already have heard the good news, and thus we can take the liberty to introduce them here (to the right). It's another case at Mount Zion, however. There it's done Academy Award style, i.e. the recipients do not know the outcome until the names are announced at the awards ceremony. Thus, we'll bring you that news after the fact.

Nursing Grand Rounds

About a year ago, the clinical nurse specialists instigated the Nursing Grand Rounds with a full-day program of case studies related to culturally sensitive nursing. The grand rounds concept proved so popular, the program now has been adopted by Nursing Education as a quarterly offering. This quarter the Nursing Grand Rounds *just happens* to fall during Nurses Week, a fine coincidence, and it's being held on Tuesday, May 5, at Mount Zion. The subject is pain management, and the presenters include:

- The ICN's Sue Peloquin, on pain in the neonate
- OB's Mike Fox on labor pain
- 11 Long's Twyla Lee and Stephanie Schleuter on cancer pain
- Mount Zion's Deborah Hamolsky on pain related to sickle cell disease
- ER's Tina Baker on chronic pain
- ICU's Mary Reid on critical care pain

There is no cost for this program (or any of the Nurses Week events) and it's good for six CEUs. Registration is required, however — call 476-2993. Should you be interested in attending a specific portion of the program, that's fine. Call the same number for a schedule.

Grand Finale: Ophelia Long

Ophelia Long, who beat the odds to become the chief executive officer at Kaiser Permanente Medical Center in West Los Angeles and subsequently the CEO of Highland General Hospital in Oakland, will wrap up the week with two speaking engagements on Friday, May 8.

First, she'll speak to nurses on Parnassus, then travel over to Mount Zion for another presentation. Her topic at both locations will be "Nursing Image: Professionalism."

Long is a rare combination for a hospital administrator — black, female and a nurse. Her appointment at Highland Hospital in 1990 brought widespread publicity and subsequent acclaim for her successfull efforts.

"She's a wonderful role model," says the School of Nursing's Delois Weekes, who coordinates the School's annual Black Nurse Symposium. Long served as the well-received keynote speaker for last year's symposium.

Mary Coté, 7 Long

Award for Excellence in Cardiovascular Nursing

"I wish I could clone Mary Coté," says Jennifer Dickman, head nurse on 7 Long and one of Mary's nominators. Several pages of commendations attesting to Mary's expert nursing skills, high standards, thorough manner, quick thinking, calm demeanor, leadership and enthusiasm are summed up by Pat Sparacino, another nominator: "I would definitely ask to be assigned to Ms. Coté's care should I ever be a cardiovascular patient." Mary has been a member of the 7 Long staff for two (plus) years.

Mari McQuitty, 9 ICU

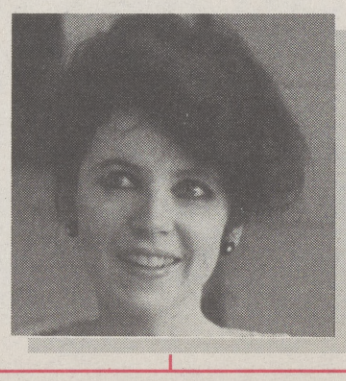
Clifford K. and Avola Wilson Memorial Award for Excellence in Critical Care Nursing

"I truly believe there is no other nurse in the ICU whose clinical skill is as widely recognized as Mari's," says colleague Julie Dearwater. "Because providing excellent physical care is second nature to her, she is able to identify psychosocial needs that may not be evident to others. She recognizes the humanity of individuals amidst the technology surrounding them." Another colleague, Patricia Tam, who says she had "the pleasure of having Mari as a preceptor," calls her "a fine resource for both new and seasoned staff." Mari has been a critical nurse at UCSF for nine years.

Kathy Della Jacono
7 Long

Award for Excellence in Transplant Nursing

"One of Kathy's greatest strengths is her role of patient advocate," write colleagues Arthur Cantos and Jennifer Dickman. "Most often, transplant recipients are faced with a variety of issues and struggles. She is extremely supportive, going to any lengths to make sure the patient and family have the information they need." They give as an example her innovation in educating an illiterate patient about the many medications — a feat she accomplished by way of a divided tool box for pills and a corresponding illustrated poster. Kathy has five (plus) years experience in transplant nursing at UCSF.



Kathy Safford
Perinatal Testing Center

Maternal Child Health Award for Excellence in Perinatal Nursing

Kathy received numerous nominating letters amounting to about 10 pages of praise. In her 19 years at UCSF, Kathy has developed several roles, excelling in every single one, say her nominators. In her current position, she has significantly expanded the nursing role in perinatal testing, and "has saved many fetuses by making appropriate and timely decisions," according to clinical nurse specialist Maribeth Inturrisi. Kathy's exceptional teaching skills not only are a great benefit to patients, says Sarah Kilpatrick, medical director of obstetrics, but have helped shape the careers of many of her colleagues.

Nancy Yamagiwa
6 Long Medicine

Aric Alexander Pediatric Nurse of the Year Award

"I frequently find myself trying to emulate Nancy in the clinical setting," says colleague Ruth Leach. "Her patients and families are obviously at ease when she is providing care due to her calm and obvious competency. This is no easy task considering the high acuity and often devastating diagnoses of our patients. Her open communication — whether in morning rounds, family conferences or informal conversation with housestaff or attending physicians — ensures that all the patient's needs are met." Nancy has been a pediatric nurse at UCSF for almost 10 years.

Nurses Week Schedule of Events

Monday, May 4
- Luncheon for Parnassus and Mount Zion head nurses and assistant head nurses, noon to 1:30 p.m. in the Millberry Conference Center
- "Vendor Fair" at Mount Zion, includes breakfast (7:30 to 9:30 a.m.) or lunch, snack or dinner (11:30 a.m. to 6:30 p.m.). Location: A 18 at Mount Zion

Tuesday, May 5
- Nursing Grand Rounds, "Pain Management," 8:30 a.m. to 4:30 p.m., Mount Zion's Herbst Hall

Wednesday, May 6 (National Nurses Day)
- Mount Zion Awards Reception, 2 to 4 p.m., A 18 at Mount Zion
- Parnassus Awards Reception, 4 to 6:30 p.m., Millberry Conference Center

Thursday, May 7
- Breakfast for nursing staff hosted by head nurses, 7 to 10 a.m., Moffitt Cafeteria

Friday, May 8
- Guest speaker: Highland Hospital CEO Ophelia Long, 9 to 10 a.m. in HSW 302, and 11 a.m. to noon in Mount Zion's Herbst Hall. Reception follows Mount Zion talk.

"Spend a Day" Takes a Break

The "Spend A Day" Program, which traditionally takes place during Nurses Week and National Hospital Week in May, is taking a break this year.

"Many of the people who usually organize the 'Spend A Day' program are the same ones who are so involved with FIP projects right now," says Administration's Kathy Balestreri. "It was just too much."

The "Spend a Day" program offers Medical Center employees the opportunity to spend an hour or so visiting another department that interests them. Hopefully, says Kathy, we can look forward to the program being reinstated at a later date.

"Safety First" Friends Returning May 13 & 14

Remember last year when members from several safety-oriented departments brought you the "Spring into Safety" fair in the Moffitt Cafeteria?

Well, they're doing it again, this time on Wednesday and Thursday, May 13 and 14, from 7 a.m. to 7 p.m. both days.

If you forget these dates, don't worry, you won't miss the fair. This time the booths are going to be set up wagon-train style right in the center of the cafeteria. Representatives from Infection Control, Environmental Health & Safety, Nursing Education and the Campus Police will be present to provide information on all kinds of work-related and personal safety issues.

If you don't have any clues as to the kinds of questions you can ask at the fair, no need to be stumped. Next issue we'll print a whole list of good questions about infections and toxics and fire hazard and back injuries, etc., etc. Stand by.

P.S. There definitely will be door prizes and *free fortune cookies* again this year.
